

TurboFil's Pneumatic Cap Tightener is a reliable cost effective tool for capping and decapping. A tool balancer suspends the capper overhead to reduce operator fatigue. It includes a quick disconnect coupling, 12 foot coil air hose and limp hose with inlet for hook-up to in-house air supply.

Features

- Tightens caps up to 85 mm
- Torque adjustment
- Torque range from 10-97 inch.lbs
- Lever start
- Capper and Decapper in one unit
- Easy to set up, easy to use
- Quick change chuck
- Quiet operation

Key Benefits

- Very easy to use
- Compact - small footprint
- Cost effective
- Highly reliable
- Reduces operator fatigue
