

TurboFil's Semi-Automatic Production Crimper uses tool balancer for crimping bottles on a table or conveyor without removing the bottle from the surface. It can be used on a semi-automatic line or can be fully automated for speeds of up to 30 bottles per minute. The crimper always stays vertical, which guarantees a straight and even crimp. It is a highly reliable workhorse.

Specifications

Cap sizesUp to 20 mm standard; custom sizes available
